Home Front in Michigan

Michigan motorists have no occasion for a smug "titter up the sleeve" as nearly 10,000,000 autos...

As Price Administrator Leon Henderson explained on April 28, "a staggering excess of money over the supplies of goods available threatens disaster to the civilian economy and to the war effort."

Posting prices of cost-of-living commodities was required of every retailer this week, starting Monday.

Every merchant must send a statement of these ceiling prices - highest prices which he charged during March. Another reason why Price Administration in Detroit not later than Monday, June 1.
