**25 Years Ago**

From the Journal of Nov. 13, 1931

The Eaton Rapids football team whitewashed Charlotte here Tuesday afternoon by the score of 53 to 0. The locals scored eight touchdowns, two each by Red-wid, Frantz, Baumer and Strickling.

Paul Letts, assistant scoutmaster and an Eagle Scout, has been elected captain of the school safety patrol, which is being inaugurated with 40 boys volunteering for duty.

The Sunday edition of the Detroit Free Press gave about a half page of space to Mrs. Sam Bell of this city and her sister-in-law, Mrs. Lois Bell Smith of Charlotte. Both won fame recently in the National Canning contest. The high school debating team opens its season Saturday night against Hastings. Members of the team are Paul Simpson, Eva Julie Sammons and Monta O'Dell, with Marguerite Miller as alternate.

Eugene Anderson, a high school student, took the sweepstakes prize in the community's 10th annual apple show. Lewis Eckard

went to Stockbridge a few years ago, has established his own plumbing business in that village.

Clive Collins, son of Mr. and Mrs. Howard Collins, had his hand painfully lacerated by a saw when he caught it in James Houston's bean threshing machine on Mrs. Ida Elshoff's farm southeast of town.

Commencing Friday, Nov. 10, the price of milk here will be raised to eight cents per quart. Restaurants or others buying four quarts or more, six cents.

Miss Nettie Hoiler is again at her post in the library after a two-week absence. She will go to Ann Arbor Wednesday to hear Fritz Kneisel, the famous Austrian violinist.

Harry Moulton, Irving Gunnell, Dr. R. C. Rolis and Gay Spicer left yesterday on a deer hunting trip in the upper peninsula.

Dr. C. J. Lockey of Grandtots has purchased the lease and dental equipment of the late Dr. F. C. Arnold and will open an up-to-date dental office here soon.

Mr. and Mrs. C. E. Harder moved into their new home on East Street Saturday, just 40 days after contractor M. E. Lane started the excavation for the house.

**HUNTING SEASON OPENS**

Only a few days left to prepare for that Northern hunting trip! We have your every need. ALL REASONABLY PRICED! Come in and let us show you how much you can save.

**A Dogs Life**

HOW LONG DO DOGS LIVE?

By Dr. E. M. Giddow, D.V.M.

Although some dogs have lived to be 35 years old, what we call a "normal" life span for a dog is about 12 years.

Here are some of the factors affecting a dog's life span:

1. Selective breeding. The sex of the dog.
2. Scientific feeding. Nutritional knowledge of your needs all the same vitamins and other elements as humans, except for vitamin C. Dog food should be such as carried on at Friskies Research Kennels has made all these nutrients available in dog purpose commercial foods available in any feedstore. A well-balanced diet means a healthier dog.
3. Sanitation and disease control. Many dog diseases are caused by parasites and bacteria. Prevention of disease by vaccination, and of parasites by sanitation and treatment will lengthen the life of most dogs.
4. Automobiles. This cause of early death of so many dogs is preventable. Dog food should be such as carried on at Friskies Research Kennels has made all these nutrients available in dog purpose commercial foods available in any feedstore. A well-balanced diet means a healthier dog.

Feeding tips: Does your dog have the empty bag of eating fifth or dirt? If you are feeding your pet a scientifically prepared dog food this habit may simply mean that he is inactive, bored or has intestinal worms. Have him checked for parasites; change his environment, and give him something to do. Feeding him with a toy or harmless object to play with, may solve your problem.

**Knight District**

Mrs. Chester Smith

Daughters of Mr. and Mrs. Herbie De Put were home Sunday to help him celebrate his birthday. Mrs. Guy Dlabro and family from Ann Arbor; Mrs. Mary Ann and family from Brookfield and two cousins from Albion.

Mrs. Fred Fry and Mrs. Ella of Carlisle were Sunday dinner guests of Mr. and Mrs. Chester Smith.

Bert Bradford has the best looking wheat I've seen since I left the plow. It is directly after planting corn and worked the ground well all summer.

Mrs. Maurice Twitwell visited her parents, the Braces, Saturday.

Martha Smith of Pontiac spent Saturday with Mr. and Mrs. Chester Smith returning early Sunday since she directs a church choir in that city.

Mr. and Mrs. Howard Hamlin entertained their daughter, Margaret Phillips and family of Ann Arbor, over the week-end. The Blankens joined the group on Sunday.

Mr. and Mrs. Robert M. Connell of Charlotte brought Edith Rouse over Thursday evening to visit her parents.

Mr. and Mrs. Wallace Swank called on Mr. and Mrs. Edna Finkem Sunday, Supervisor of Sunfield township.

Sunday callers at Howard Rouse's were Mr. and Mrs. Charles Pfister of Mason.

**Clinton Road**

Mrs. Homer Speer

Mrs. James Hillier's father, George Whitaker, has been helping Mr. Hillard in the corn. He has it nearly all done.

Visitors Sunday at the home of Mr. and Mrs. Sam Kiefer were Mrs. L. C. and Mrs. L. E. and Mr. and Mrs. William Schwab and their children. Their home is in Clister, Ohio.

The farmers have most of their corn picked and the cure have had nice weather to do it.

Mrs. David Finch and Mrs. Homer Speer went to the Methodist church Sunday afternoon and saw the art show. The pictures certainly were beautiful.

Mrs. Lyle Siegrist and children from Narrow Lake, called Friday evening at her mother's, Mrs. Speer's.

Mr. and Mrs. Risner's daughter, Esther, was taken ill and taken to Ann Arbor hospital. But seems to be doing okay now. Maybe she can come home this week end. We certainly hope she will be better soon.

**East Hamlin**

Mrs. Ben Fries

Mr. and Mrs. Wayne Clegg and children spent Saturday evening at the Carl Young home at Charlotte.

Saturday night, Mr. and Mrs. Leo Daxberger and Mr. and Mrs. Ben Fries attended Pomona Grange at Charlotte. This was the grange's 40th anniversary.

Rolla Carpenter attended church in Jackson Sunday. Some friends from Charlotte took meeting with them.

The first school meeting at the Grange hall in Eaton Rapids Monday night, Nov. 12, at 7:30 p.m. was very successful. The school will keep the rural schools open.

Little Bobby Carpenter was seven years old Sunday so his parents went to the first meeting at the grange. Mr. and Mrs. Henry Hughes, and other relatives helped him to celebrate.

Looks like Hamlin township will have a record turnout at the election.

The Fries had a phone call from Hugo. They are temporarily at Duarte, Calif., near Pasadena.

**OLDS FOR '57**

**News Notes**

from your Eaton County Extension Agents

Bill Kimball Agricultural Agent says: Get rid of Next Year's Insects Now!

Believe it or not, now is the time to start getting rid of next year's insects.

You can reduce the number of insects you'll have to kill next year by cleaning up your garden this fall. With the arrival of the first frost, the insects start to congregate and look for winter quarters.

Winter quarters for many of these insects will be the plants in your garden. This is why this summer's lush greenery, the insects, in various stages of their life cycles, will make their homes there during the winter, and emerge next spring ready to attack your young plants.

Naturally, if the debris is removed, these insects will have no place to hide. Insects that are in the garden during the winter, besides eliminating the insects, you should also use traps, you can also do your soil, and use fertilizer to put back on the garden.

Discing it in will increase the amount of organic matter in the soil.

You won't eliminate your garden insect problems entirely by discing and plowing. You will, however, you will reduce them considerably.

**Take Care of Tools Now—**

Before winter sets in, it pays to clean and store your tools. Tools that are in the top condition and ready to use in the spring.

Tools and garden supplies often are ruined by rust or freezing during the winter because they are left in the fall. Galvanized iron hand sprayers can rust out unless they are thoroughly cleaned and stored in a dry place. Rinse with clean water or kerosene and keep in a dry place. Clean up and hang upside down.

A neglected hose with water inside may spring a leak in freezing weather. So empty it, roll it up and store away. You may want to keep it easy to get to, though, in case it warms up enough to use it for washing the car milk winter.

Clean up old tools and rub them with a little wax to prevent rust. Store them in a dry place. Rust can be removed with steel wool before applying wax.

Fall is also the time to get tools sharpened, including the lawn mower, so they are ready to go in the spring. This garden equipment clean-up can save both time and money.

Tools and garden supplies are equally good for larger field equipment on all farms.

**4-H Clubs**

It is getting to the time of year when our winter 4-H clubs are directly in line with the clubs that Dec. 1 is enrollment deadline date. The club members are to be ready to start their projects if they wish. Any groups who desire to be 4-H clubs this winter should contact the County Cooperative Extension office, Eaton Rapids, Michigan. We will contact you and set a date with you to come out to your group to help in any way we can.

**Winter Home Ec. Project Meeting**

About 40 leaders and junior home ec projects this winter, met at the Extension office to get new information and discuss mutual problems.

Tips on patterns and fabrics for coats were given by Mrs. Gordon Gilbert, Mrs. James Mahan, and Mrs. James Clarke.

The women go every day to the home ec projects this winter, met at the Extension office to get new information and discuss mutual problems.

The grooving project was given by Mrs. George Kline and the home agent, Anne Field. This project is to be held in January at which time the women will make coats and girls interested will take this one project, though different clubs may carry different activities within the project. Kits of reference material were given to the leaders. They were given ideas on improving their educational exhibits with more color, better lettering, simpler themes, models instead of pictures, and better arrangements of things in the exhibits.

**Home Ec. News**

By Anne E. Field

Cereals are a basic part of the breakfast pattern, but it doesn't mean they are to be just cereal and milk.

Cereals are welcome foods all the time of the day. One of the latest breakfast cereals is a cereal that is made with the cereal, and add a fruit-topping for a real sundae effect. Be sure you have a cereal that is made with the cereal, and add a fruit-topping for a real sundae effect. Be sure you have a cereal that is made with the cereal, and add a fruit-topping for a real sundae effect.

Another breakfast special is griddle cakes made with bran flakes. The texture is interesting and the bran flavor is different. Or, top wheat biscuits with brown sugar and cinnamon for a good butter-brush flavor. Store fruit.

Because cereals make excellent most extenders, they go well with leftover beef, veal or ham. Besides the familiar meat loaf, cereals can be used in meat pies, and for breaded croquettes, chops and steaks. Cereals are good for this purpose.

When the crisp texture of a cereal is added to a sprinkling of cereal flakes, puffs or shreds on cornstarch pudding, a new treat is born. Cream puffs benefit from a cereal crust and cream balls rolled in ready-to-eat cereal have a crisp, nutlike taste.

Cereal can also be used in easy-to-prepare snacks such as cereal cookies, cream-cheese spreads or spicy combinations of cereals, nuts and pretzels. Breads and muffins with cereal are also well-liked.

Many of the 4-H girls, whose reports have been reading recently, have told of using cereals in some of these different ways. They say their families have enjoyed these different foods, and they have been able to include more cereals in their diets that way.

**Apple Treats**

It's appletime, with apples plentiful everywhere—in orchards, roadside markets and grocery stores. Nothing is better than a crisp, juicy apple eaten out of hand, but sometimes we enjoy apples some other way.

**Agricultural Exports Increase**

Value of agricultural exports from the United States during July and August of this year have been estimated by the Department of Agriculture at over \$1 billion dollars. This figure is 22 percent ahead of the same months of last year and more increases in exports of cotton, wheat, rice and soybean oil, and a tobacco export. The tobacco export is unusual because the large volume last year. The Department forecasts 1956 as one of the best years for exports of American agricultural exports. At the present rate, exports for this year could reach four billion dollars.

**4-H News**

Jerry Sumner

County 4-H Club Agent

**Fat Stock Members**

All boys and girls in 4-H or FFA are encouraged to get their steers before Dec. 1. If they intend to show and sell a steer or two at the 1957 4-H Fair, State rules say we must use a certain amount into the M.S.U. office by Jan. 1 so let your Vo-Ag instructor, or me, know if you have a steer now. Hogs and lambs are not started until spring.

**Cooperation**

Some people have asked about the difference between projects in 4-H and FFA, and the difference in these two programs. This can be explained very simply in this way. FFA is operated by high schools under the Smith Hughes Act which grants money to help pay Vo-Ag instructors in a school system, whereas 4-H is operated through Land Grant colleges and the U.S.D.A. Cooperative Extension service. The financing points are different but all else such as aims and programs are the same. Both are for the young people interested in seeing that the young people get a good start in life, and possibly help them choose their way of life.

It is a pleasure for me to sit down once a month with the Vo-Ag fellows and help each other with our program. Since projects are taken by the young people and reports are made. Both are for the young people interested in seeing that the young people get a good start in life, and possibly help them choose their way of life.

**Mrs. Bell Glad To be Home From Britain**

By Mrs. Herschel Kellogg

Mr. and Mrs. Tom Bell drove recently to Montreal in the United States. Mrs. Florence Bell, returning on the liner Saxonia from Britain.

How did it seem to spend five months in England after forty-five years? Were there noticeable changes? How does English life compare with ours? What are some of the highlights of her trip? These and other questions were asked of the traveler.

There were not as many changes as Mrs. Bell had expected to find. Sometimes it seemed that she had never been away. Of course new towns had come up where she remembered farming, and roofless, windowless buildings reminded her of bombings during the War. Also almost everyone from ages 14 to 60 or 65 wore a uniform, and she saw only an average of five dollars a week. Socialized medicine, coal rationing, security of power socks and packaging of merchandise, limiting of money travelers can take out of the country to about \$50, tax on radios and television sets, only one broadcast station, small cars, a fear of electrical appliances were new to her.

But on the other hand Mrs. Bell found her people living in attractive homes (many in "connected" houses, all-in-a-row) in a garden setting. Furnishings were of high quality but simpler than here. A feast came from fireplaces and electric heaters. There was often an "all kitchen, equipped with a gas clothes boiler. Floors were nearly always covered with a soft carpet. Proper work was done on a large table rather than a counter. The women go every day to the market. To the grocer, the butcher, the regular grocer's often to the dripper's (dry goods) and to the baker's. They buy fish and chips or meat pie hot at a shop and bring them home for lunch. And serve many cold cuts of meat at tea (dinner). They eat a fourth meal at bed-time of tea or milk, cakes and sandwiches.

The few refrigerators are tiny gas models. Washers are large and rare (many send the large pieces to the laundry). They do have fridges and vacuum cleaners. Bicycles are the rule with small cars common. A large American car is called "there are no hamburgers, hot dogs or sandwiches, although ice cream is served in the homes. People are nicely dressed but "ready-made" don't fit as well as ours. Their tobacco comes as large as our half dollars.

Mrs. Bell enjoyed her best trips with stops at Greenland and Quebec. She took pills to prevent sea-sickness, enjoyed the glassed-in "porch" decks as well as the open decks, the good meals, daily movies, and other diversions. But she says she is glad to get back to the States. She feels more at home in the bustling, up-to-date life she has come to regard as her own.

**Kiwanis Sponsors Farm-City Week**

Improved mutual understanding between rural and urban people is the goal of Farm-City Week, Nov. 16-22.

The program seeks to give farm and city folks a look at each other's problems and promote a better understanding of our American way of life.

In Eaton County the Charlotte Kiwanis Club is sponsoring a program for this week for better rural-urban understanding throughout the coming year.

In Michigan, Farm-City Week programs are being led by a statewide committee of representatives from rural and urban areas. Paul A. Miller, director of the Michigan Cooperative Extension service, is chairman.

The program in Eaton County is being planned by the National Farm-City Week, which was proclaimed by President Eisenhower in 1954. The program is a service organization, is a coordinating agency for the national program.

**LOOKING for Quality Coal with lots of heat?**

Then try Patsy! It's over 97% pure coal and comes from a very rich seam of coal in Eastern Kentucky. You'll be happy with Patsy because it gives steady, clean heat for a long time. You'll make fewer trips to the basement, too, for Patsy yields less than a hatful of ash a day. You can depend on Patsy, Coal.

This coal on your delivery slip means you're getting genuine Patsy.

Venison Recipes

If you can prepare beef and lamb for your family's table, you should have no trouble coping with your husband's prize trophy of venison.

Even though you get a deer that is tough or has a strong flavor, there are ways of preparing it so the table that will make it palatable and appetizing.

Use moist methods of cooking, or tough cuts and use bacon, vegetables and fruit juices to give different flavors. Venison seems to be concentrated in the neck and the left or the right side of the neck. The neck and the left or the right side of the neck are much more difficult to cut out.

Choose a piece for your plaid that has simple lines and fewer pieces to make the matching process easier, and keep the plaid design from being distorted. When you baste the pieces together, use slip knots for a perfect match. This means turning under the seam allowance on one piece and pinning it in place on the other.

**Curtice's Shows New Buick Line Friday**

Buick for 1957, with more engineering and styling changes than any of its previous models, goes on display Friday at Curtice Buick, Inc., Charlotte.

The dealer's showroom will be open until 8 p.m. Friday, with free favors and free coffee and doughnuts for all who drop in to see the new cars.

Some Buick models are as much as 3 1/2 inches lower than their 1956 counterparts. All have new, larger bodies, a completely new chassis and more powerful V-8 engines.

The new models are offered in four different series, the Roadmaster and Special series, and a new estate wagon is offered in the latter two series.

Most powerful of the new engines is the 364-cubic-inch V-8, which generates 300 horsepower. It is available in the top lines. In the Special series, a new 9 1/2-to-1 compression ratio engine with 250 horsepower is offered.

Dynaflow transmission is standard on all but the Special series where it is optional at extra cost. Styling changes include the new silhouette, new front and rear design, larger windshields with slanted pillars, new bumpers and new-look rear windows on the Super, and optional on the Roadmaster at an extra cost. A red, white and blue metal-look, with wings extending from either side, is centered in the new grille.

Fender lines have been raised and hands lowered. The hood vents have been narrowed to streamlined slits. They have been retained on all models as have the sculptured sweep-back molding and fender wheel cutouts.

The long rear fenders terminate in a capped bezel which contains where it is optional at extra cost. Styling changes include the new silhouette, new front and rear design, larger windshields with slanted pillars, new bumpers and new-look rear windows on the Super, and optional on the Roadmaster at an extra cost. A red, white and blue metal-look, with wings extending from either side, is centered in the new grille.

Completely new styling from hooded headlights to from the experimental Golden Rocket. Inside these headlights features Oldsmobile for 1957, with the most sweeping model change in 20 years, as previously noted in our "Sky-Line" feature.

'57 Olds on Display At McNamara's Friday

Oldsmobile for 1957 has completed the most sweeping model change in the past 20 years, with distinctive styling innovations and mechanical improvements in every one of the 17 body styles in three series of cars. The body is completely new, with deeper fenders and a redesigned grille.

Four new body styles have been added to the 1957 Oldsmobile line—three Fiesta station wagon models and an economy priced '57 convertible coupe.

"Dream car" design for driving today is offered by Mercury in its completely new line for 1957. Representing one of the most extensive model changes in history, the 1957 Mercury has a unique styling theme highlighted by graceful, sculptured side profiles, a toppling low rear fenders and terminating in massive V-angle tail-lights. Entirely new, bigger bodies designed especially for Mercury are wider and longer and roomier, giving more passenger comfort. Overall height has been reduced four inches, yet head room has been increased two inches. A split ride, better handling and roadability result from newly engineered chassis features, which include the industry's first air-cushion rear suspension on many models. A choice of a 255 hp. or 290 hp. V-8 engine is offered in Mercury's 15 new models in Monterey, Montclair and station wagon series. Pictured is the Mercury Montclair four-door sedan.

## Mercury Introduces 'Dream Car' Styling

The 1957 Mercury line will go on display Monday, Nov. 12, at Ed Vogel Motors, Charlotte.

Introducing "dream car" design, the 1957 Mercury are distinguished by an unusually low silhouette, a completely new and larger hood, choice of 255 hp. or 290 hp. V-8 or 290 hp. Turbodiesel engines and a unique new floating-ride which pioneers air-cushion rear suspension on many models.

"These new Mercury introduce a new concept of motoring with bold, new styling and many mechanical advances destined to influence the shape of cars for years to come," said F. C. Roth, Ford Motor Company vice president and Mercury general manager.

Mercury's long, flowing lines are highlighted by graceful, sculptured side profiles, toppling low rear fenders and terminating in massive V-angle tail-lights which make Mercury unmistakable on any road.

The new Mercury's "dream car" styling is based on the XM Turnpike Cruiser an experimental model which was introduced last January and has won nationwide approval on its coast-to-coast tour this year.

The 1957 Mercury is 5 inches longer than the previous model, 2 inches wider and 4 inches lower. Wheelbase is up 3 inches from 119 to 122 inches and the front track is one and a half inches wider.

The new Mercury styling starts with the thin, crisp roof with its distinctive front and rear overhang. Slim but rugged pillars support the roof front and rear. With sharply reduced car height, the roof has become an integral part of car design. First to recognize this important transition, Mercury has imposed a clean-cut channel in the center of the roof which continues in the rear deck with the channel extending past the rear window into the trunk lid. The better version, total glass area has been increased by 100 square inches.

The projectile side theme in rear fenders accents the feeling of motion induced by the bold, new styling and the projectiles as well as the distinctive V-angle tail-lights are rimmed with Jet-Flow double bumpers with large, twin oval protrusions on a wide, flat, wide-width grill composed of vertical struts, bright metal houses combination marking lights and turn signals and is topped with projecting headlamps and forward-thrust tender hoods.

Mechanically as well as in styling design, the 1957 Mercury makes newsworthy strides forward.

### a Dogs Life

THE TRAMP  
by Bob Bartos

Manager, Pringles Research Kennels

What can you do if your dog has wandered? First of all, you can teach him obedience. Then watch him closely. If he starts to wander, call him back to his own yard. Do this again and again and he will eventually get an idea of what's expected of him.

Some dogs, particularly the larger breeds, go off on tours because they need the exercise.

Dog of the Week: MINIATURE PINSCHER

## Four Locomotive Generations

The New York Central's train of tomorrow, the lightweight diesel-powered Aerotrain (top of photo), passes at Greenfield Village as the 1841 Allegheny steam locomotive, recently presented to the Henry Ford Museum by the Chesapeake and Ohio Railway. The others, the 1841 DeWitt Clinton, first train to operate in New York (foreground) and the Sam Hill, a woodburner of 1868, are also on display. The Aerotrain weighs nearly 600 tons and is 125 feet long, compared to the Allegheny power unit's 61-ton weight and 63-foot length.

## South Hamlin

**Florence Zeitz**  
Correspondent

Mrs. Margaret Riker and Mrs. Sylvia Schuler were in Jackson, Saturday.

Mr. and Mrs. William Russell and children were in Lansing Monday evening.

Mr. and Mrs. Eyle Williams and children visited their parents, Mr. and Mrs. LeRoy Williams on Spicerville road Sunday.

Mr. and Mrs. Morris Schuler, matron-elect of the Hamlin, and Mrs. George Schuler.

Andy Poleha of Detroit spent the week end with Helen Poleha and Mr. and Mrs. Carl Binkowski.

Cheryl Lee Hathaway daughter of Mr. and Mrs. Wendell Hathaway, is confined to her bed with rheumatic fever.

Mrs. Nina Reynolds attended the wedding of Michael Giddings and Jean Miller at the Griffith church Saturday evening and the reception at the home of Mrs. Riker.

## Cub Scouts

Den 11 - Last Tuesday we met at Mrs. Gayton's house and made pencil holders. We played football and said the Prayers. John Holmes brought cookies.

George Hendrickson, Keeper of the Buckskin

## Who says dream cars never come true?

# Dynamite from Detroit

Coming! America's first production dream car... it will influence the shape of cars for years to come.

The old Detroit rule was to introduce new features gradually, to make little changes each year. Sometimes a new grille, an engine improvement, or new colors and trim.

We broke that rule. In fact, we broke all the rules. This is dynamite!

For you are not the only one who has dreamed of a totally modern car, a car that has everything you find at automobile shows, in illustrations, and in custom-built experimental cars.

Detroit has had that dream, too. And that's why the 1957 Mercury is the car that has honestly excited the most car-jaded, the most sophisticated of Detroit's automotive experts.

When you see the new 1957 Mercury, you'll see America's first full-production dream car—a car that will influence the shape of cars for years to come.

You'll see a dream car you can own and drive—a car that has far more than startling years-ahead beauty.

THE BIG M for '57 boasts dream-car features never before found outside a designer's dreambook: a Key-board Control that makes ordinary push-button driving old-fashioned; an exclusive Floating Ride with a revolutionary new cushioning action you have to feel to believe. There are Mercury "firsts" everywhere you look. A Power-Booster Engine Fan in the Montclair series that saves horsepower other cars waste. And many more Mercury exclusives.

You'll see THE BIG M—the new Mercury for 1957—soon. You'll see it. You'll drive it. The first dream car that can be yours. The dynamite is on its way from Detroit to your dealer's—now!

STRAIGHT OUT OF TOMORROW

## THE BIG M for '57 with DREAM-CAR DESIGN

See it at your MERCURY dealers on November 12th

Your Assistant County Agricultural Agent

Eaton County Farm Families Volunteer Interesting Information

The most interesting project I have had part in was begun last winter. On Jan. 20, Anne Field and I made our first of 15 very interesting interviews with farm families. We arranged these visits between our regular work.

This little survey of Eaton county farm families was conducted to help us become better acquainted with families and the farm situation in Eaton county. The information the people gave us has helped us tremendously during this past year.

We talked to the folks first

## Good Soil Samples Make Good Soil Test

Soil testing is a very exacting science. The methods of soil testing and the chemical processes used are very highly developed. In fact, they are so highly developed that the biggest variable in the soil test is the soil sample itself.

The soil sample consists of about 2 pounds of dirt, but there are about two million pounds of dirt in each acre of topsoil on your farm. That means that you're getting a pretty small part of the actual dirt, and makes it more difficult to get a representative sample.

You'll have to use your own judgment on how much area a sample should represent. Take into account differences in texture, topography, drainage, past management and other production differences. Sample any special areas separately. Generally, the best method for making a soil sample is to take 10 to 15 samples.

Watch for the facts from this study in the column later in the year.

By Jerry Sommer

Your County 4-H Club Agent

Annual Conference for Extension Agents -

Rather than going into details about specific things or sessions going on last week at Michigan State University, I'd like to generalize a bit about our conference.

Russell Mawby, assistant director in charge of 4-H, gave the club agents in Michigan a very good look at things to come and projects for the better in regard to 4-H in Michigan. A close study of the 4-H projects and possible changes in these to produce a more effective program will be made in 1957. The rest of the year will be beneficial to every 4-H member in Michigan.

Also, we will concentrate on project work and not enough on the boy or girl taking a 4-H project. The changes to be made will help to improve the results gained by each 4-H member. Leaders will be given more help to carry on the 4-H program.

We agents gathered from the conference too in learning new ways to do our job better and more efficiently.

Also, one of the best parts of a conference is the time taken to share ideas with agents from other counties—generally, I learn a lot from each of the club agents for Eaton county. Then too, I hope we in Eaton county have helped other counties by passing on some of the things we are making progress on.

Full Achievement Night -

Nov. 10 is our Full Achievement night in the 4-H building beginning with open house at 7 p.m.

## COY-TOYTAIL AND FOX (OR ANY) SQUIRREL

STAGGERED FRONT PRINTS

LOOK ALIKES IN WINTER TRACKS

CAT HAS ROAMER TRACK! CLAW MARKS MISSING

CLAW MARKS SHOW IN FOX TRACK

When out tramping in the snow, don't be fooled by look-alike track leavers. Rabbits and fox squirrels, scooting through back yards along hedgerows, leave tracks that appear similar but are actually slightly different. The fox and housecat also leave similar tracks, but close observation tells which is which. The sample shown is by Oscar Warsch, Conservation Department wildlife artist.

We are extending an open invitation to all 4-Hers and non-4-Hers to come on over to see our displays and to be there when we honor our 4-H club members. Honors will go to the County Model winners, special award winners, and Chicago trip winners.

Use a spade or trowel to take samples. Push the spade vertically to plow depth and bring out the soil—then throw it away. The sample should be a thin slab, not a pile or a mound. Repeat the operation as many times as necessary.

Send the samples to the testing laboratory at the identification office along with information on the past management of the area and your place for the better in regard to 4-H in Michigan. Make sure the origin of your sample is clearly identified.

The Soil Conservation Service and our office has prepared cartons to help you in collecting your samples. Write or stop at our office and we'll provide you with free cartons.

Word has been received from the State H. H. office, that the Eaton County 4-H Club has been named a member of the Rosettes (the trio of girls who sang their way to be among the top five acts in the National 4-H Share the Fun Talent Contest), and has been very active in teaching recreation in her church and school groups locally and at church camps. Congratulations Carol on a fine job.

Phyllis Van Vleet, Judy Rhodes and Bill Gehman have returned from their trip to New York City. They were winners in the State 4-H judging contest. Bill was first in Home Improvement judging and Phyllis was first in Demonstration Junior at those times.

Phyllis was 2nd in Home Improvement, so gave up the De-

## New kind of Ford makes record run of decisive importance to '57 car buyers!

A new 1957 Ford traveled 50,000 miles at an average speed of better than 108 mph... including all pit stops... to smash 458 National and international records in a single test! Never before has any car been so severely tested... so successfully proved!

Imagine being able to select a new car that's an exact duplicate of the car that faced up to the most exhaustive endurance test in history—and came across the finish line still fresh and eager to GO!

You don't have to imagine it! For now you can have this kind of car in the new kind of Ford for '57.

Just recently—on the Bonneville Salt Flats in Utah—two new '57 Fords completed such a test under supervision of the United States Auto Club and the Federation Internationale de Automobile. They were Ford-prepared pre-production models, exact duplicates of the ones your Ford Dealer now has for sale.

These Fords completed the 50,000 mile run in less than 20 days. One averaged 108.16 mph for the entire run... the other over 107 mph. These averages include time for all pit stops.

No such test has ever before been tried, let alone successfully completed!

The test shows without qualification what Ford's new Thunderbird V-8 engines will do. But this was no mere demonstration of speed! It was a convincing demonstration of the superior quality of the whole Ford car.

It shows the superior endurance of Ford's running gear, brakes, body materials, steering—every part of the car. For without such built-in stamina, Ford could never possibly survive such torturous treatment.

Such a test can't help but make the decision easier for people who prize truly outstanding performance and durability in a new automobile... and who want the fullest possible value from their new-car dollars.

\*Available in a wide range of horsepower to meet your needs. Includes a special 270-hp Thunderbird V-8 Super V-8 engine available at extra cost. Also, an extra-high-performance Thunderbird 312 Super V-8 engine delivering up to 285 hp.

## Action Test the New Kind of FORD TODAY!

Fertilize Orchards Soon—  
Fall fertilizer applications in

orchards have a number of advantages over applications in the spring. Fertilizer applied in the fall is still available in the spring, as it moves into the deep root zones of the trees. However, if your orchard is on light soil it might be well to apply a part of the nitrogen in the spring as nitrogen leaches very easily in light soil. Fall applications should be made after the leaves fall.

Application recommendations for apple and pear trees, use a complete fertilizer with a 1-1-1 or a 2-1-2 ratio. Apply enough to supply two to three ounces of nitrogen for each year of tree age up to one to three pounds of nitrogen per tree.

For example, apply 12-12-12 or 10-12-12 at a rate of one pound per year of tree age up to 10 or 15 pounds of fertilizer per tree. For established peaches, cherry, and plum trees, cut the above recommendations about in half. For normal healthy vineyards, apply 20-20-20 or 20-10-10 in the fall. For normal healthy vineyards, apply 20-20-20 or 20-10-10 in the fall. For normal healthy vineyards, apply 20-20-20 or 20-10-10 in the fall.

**Eight Attend MSU Short Course**  
Michigan State University Short Courses Enroll Eaton Youth. Eight young people from Eaton County have enrolled for the Fall Term Short Course at Michigan State University according to a word received last week from Don Shepard. Don is a resident of Charlotte and assistant director of Short Course. He reports that Eaton County is represented with a second year student in general agriculture—Charles Bernier—Grand Ledge. Edward Miller, Bellevue, Lowell Steward, Vermonville, and Lewis Young, Charlotte, one second year student in horticulture: Roy Harmon, Grand Ledge, and three first year students: Joe Zakschewsky of Vermonville in general agriculture; Charles Edington of Grand Ledge in the elevator and farm supply course; and Janet Tasker of Grand Ledge in horticulture.

**Extension Groups**  
The Backyard Extension club met Oct. 31 at the Community Center for an all-day meeting. There were 17 members present. A delicious potluck dinner was served by the hostesses, Mrs. Ralph Higdon and Mrs. Fern Payne. The group prepared business cards with mustard sauce in the forenoon to accompany the dinner, this being done as a part of the lesson on "Quickie Meals". After dinner, a short business meeting was held. Each member answered the roll call by telling what she enjoyed at the Eaton County Fair and/or what she enjoyed doing most the past Summer.

**Cub Scouts**  
(Last Week)  
Our den met at Mrs. Gayton's house. We made place cards in the shape of pumpkins for the Pack meeting. We played games. George Hendrickson brought candy bars.

**5,000 People Will Read Your Message Here 40 Words for 50c**

Here's the biggest "buy" in want ads you ever saw! Describe completely what you want to buy, sell, rent or trade. USE UP TO 40 WORDS. All it will cost you is 50 cents, the half part of a dollar, if you pay by Saturday of the week you ad appears (60c after that.) If your ad runs for several weeks, the charge is only 35c after the first week.

Your ad here goes to 2,100 homes every week. To send a postcard to each of these homes would cost you \$42 for postage alone. YOU CAN REACH ALL OF THESE HOMES WITH A 50c AD HERE!

**Cards of Thanks**  
I wish to express my sincere thanks and appreciation to those who sent flowers, cards, and gifts and to all who visited me during my stay at Sparrow Hospital. Special thanks to the parties who accompanied me to the hospital. And thanks for the care at home.

**Bentley**  
Mrs. Albert Kemper  
The children of the Bentley school enjoyed a Halloween party Wednesday. Games were played and prizes given to the winners. Four of the children moved this week and will go to the Springfield school.

**MICHIGAN HOMEMAKER OF TOMORROW**—Elizabeth Ann Kuntz of Catholic Central High School, Grand Rapids, Mich., was named Michigan's Betty Crocker homemaker of tomorrow. She received state's highest score in a written homemaker examination and will receive a \$1,500 scholarship by General Mills. She will receive an expense-paid trip with her school advisor April 8-12 to Washington, D. C. colonial Williamsburg, Va., and Philadelphia. Miss Kuntz will be a candidate for the All-American Homemaker of Tomorrow. \$5,000 scholarship award.

**Glasser Rest Home**  
Mary Brown was visited by her children Mr. and Mrs. Roy Doren, Mrs. Eva Glasbrook, and William of Ohio.

**Cub Scouts**  
DEN 8 - Last week we had a Halloween party. Each cub invited his mother and one guest. All Cubs took part in a trick house. This week we helped to make bird feeders. Our Den Father, Carl Hammon, helped us. We put letters in the little hole. We put letters in the little hole. We put letters in the little hole.

**Girl Scouts**  
TROOP 15 - Met Monday at Fellowship hall. We had a treasure hunt. We had three teams and team No. 3 won. Charlene Meyers, Delores Cassidy and Marge McManis got a prize. The leaders served cider and doughnuts for treats. Sharon Rose said our prayer.

**Girl Scouts**  
TROOP 17 - Patrol 1 met at Debbie Brown's for a Halloween party from four until five o'clock. We played games and had refreshments. Next week we will add our bird pictures to our nature notebooks. Jennifer Page, Scribe
